Experience the ancient and luxurious beauty ritual that has been practiced over the last 4000 years by the Empresses of the royal court of China. Pearl and medicinal herbs have been used for centuries to beautify the skin, allowing it to be nourished and rejuvenated. Our facial protocol is easy and convenient to do in the comfort of your own home or can be received as a clinical treatment by a licensed acupuncturist or esthetician.

The Pearl used throughout our facial is packed with a variety of amino acids, minerals and trace elements which soften the skin and increases cell regeneration. It has the ability to reduce blotchiness and discoloration as it lightens and balances skin-tone. With its antimicrobial and antibacterial properties it is excellent to reduce irritation or infection. Our facial also includes an enormous variety of pure and valuable essential oils and herbs. Jasmine, chamomile, rose, neroli, myrrh, and frankincense hydrate and strengthen the skin. Royal jelly replenishes the skin providing a high concentration of proteins, minerals and vitamins. In addition, Green Tea, Vitamins A, C and E act as strong anti-oxidants that preserves the vitality of the skin as they protect from free radicals.

During the facial acupressure or acupuncture technique is incorporated to improve circulation and muscle tone. After experiencing this Chinese beauty ritual you will feel soothed and relaxed with a pearl-like glow. Professional Accounts and Trainings available.
